

Realtime Reporting Program  
Tuition Waiver Program

Due to the unique nature of the program, any student enrolled in the realtime reporting program who has exceeded the 1.5% maximum attempted hours will be allowed to continue their education at no additional tuition charge. This applies only to speed building classes. This does not include any online tuition fees required to provide access to the Black Board classroom.

Students may take off or withdraw 1 quarter per calendar year. If a student withdraws, sits out more than one quarter, or fails speed classes more than one time during a calendar year, the tuition waiver will be cancelled. If the tuition waiver is cancelled because of lack of performance, the student will have to sit out one quarter before returning to school. At that time regular tuition charges will be applied. Financial aid will not be available.

Effective January 1, 2007
